

94.10.11 Workshop FRI Session 35 Smoking

1. The rates of smoking steadily declining
2. Health dangers apparent
3. The general public
4. Take it up
5. In the first place
6. Many efforts have been made in this regard
7. No effort has been spared
8. Many continue to smoke
9. In response
10. Communities are instituting smoking bans
11. Smoking must be **banned/there should be a ban on**
12. Create a healthier/cleaner environment/atmosphere
13. Public places where
14. People congregate
15. Second-hand smoking/ Passive smoking
16. Inhale/inhalation
17. Less litter
18. Lower the healthcare costs
19. Reduction in tax revenues
20. Doesn't stop the behavior
21. Provide smoking areas
22. This **takes away** some of our freedom
23. We pay **either** directly **or** indirectly for the health costs **associated** with smoking
24. This is not **genuine freedom** if others are hurt
25. We are **seeking to** limit the location of this activity
26. **In the same way that** we limit the places for urination
27. We do this for a good reason, **namely** public health
28. This ban does not **threaten** anyone's freedom

Good luck!
