1. We've gotta a great topic
2. What's your yardstick? ملاک
3. Criterion معیار
4. A relatively new concept
5. It's pathetic خاک بر سرت
6. Take into account = consider
7. This concept has come into common usage
8. Come into current practice
9. The typical measures of a nations well being
10. Don't do a good job at describing this well being
11. Measure it based on GDP , GNP
12. Good job آفرین
13. .... is all about
14. The more a country consumes, the better off are the citizens
15. .... don't have much to do with ....
16. Take care of basic survival needs
17. This is known as
18. The Easterlin paradox = the more you earn money, the more expectation grow
19. It states that = می گه
20. As a country income rises, so does each person's financial hopes or **aspirations**
21. In other words
22. In this way
23. What they are now realizing is that
24. Indexes ..... ,the two being more or less the same,
25. They don't say much about life satisfaction = ربطی ندارد
26. Within and across national boundaries
27. The introduction of ... = با آمدن
28. They may be looking at the wrong index
29. The thing is

30. Most people do not **aspire** to be rich = desire
31. What they really want is ...
32. There have been a fair number of new indexes
33. As one variable
34. Life expectancy طول عمر متوسط
35. Happy planet index
36. It takes into account ... = consider
37. It shows how sustainable a nations lifestyle is
38. Use its Fair share of the world's resources
39. Future sustainability of that happiness
40. How do they on these scales?
