

You are going to work in another city for a year. A friend who lives there offered to help you find a place to live. Write a letter to your friend and say

- Express your gratitude to him/her.**
- Describe the area that you want to live in.**
- Explain what type of accommodation you are looking for.**

Dear Hasan,

I am really happy that I am coming to Shiraz to work for Homt petrochemical industries. Once again we can play tennis, read Shamlou, and camp by the river out of the city. I really do not know how I can express my most sincere gratitude toward you and your kind family because of the support you offered me to find a suitable apartment there.

As I am not so familiar with Shiraz, I wanted to let you know about the area I prefer to live in. If you happen to remember, peace and quiet is a really important factor to me so I would appreciate if you could introduce/recommend/propose ~~me a~~ not so crowded a place which ~~-Where~~ is not so far from my office because I really do not want to waste my time commuting.

Since I have to dedicate most of my time for working at the office, I prefer to live in an apartment with no more than 100 square meters s of area, so a ~~-A~~ two-bedroom flat would be ideal.

Best Regards,

Amir
