

Many people believe that women make better parents than men and that is why they have the greater role in raising children in most societies. Others claim that men are just as good as women at parenting.

Parental responsibilities and roles are very essential ~~so that they for the parents to can~~ train their children properly and prepare them for future. moreover, the way in which a mother or father treats ~~his/her their~~ children ~~affects effects on~~ their lives and futurity extremely and undoubtedly every mother and father ~~put forth do~~ their best ~~effort~~ to make a prime future for their children ~~in addition to~~ Additionally bringing up a great and well-established person. We actually could not ignore the important role of any parents. ~~Although however, throughout/~~ during the history women have mainly cared ~~for of~~ the children and men are mainly busy outside home in order to finance the whole family.

To tell the truth, It not only would be better that both mother and father cooperate to take care of and educate their children, but also could have further influence on them. However, the role of the father in training children is as ~~much~~ significant as a mother's., women always have proven themselves as superior parents because they mostly have less aggressive natures and (they) are generally better to communicate with kids. Furthermore, they have more spare time to pass with their children. Clearly, girls already learnt it from their mothers when they were young child and played ed with their ~~her~~ dolls. They were usually ~~those who whom- took take~~ care of their little brothers and sisters. It means that girls are given ~~the a~~ role of a carer career whereas boys always were more adventurouser and ~~they are~~ naturally more aggressive. Because of these features you can see that men usually do ~~/commit/perpetrate~~ crime more than women or participate in war. By contrast, ~~the~~ women are more sensitive and patient likewise.

To sum up, the way of thinking that women are superior in takinging care of children and ~~to~~ bringing them up is mostly true. But it seems to be an unfair to judge in some conditions. For instance, in a family ~~where which the~~ mother ~~has is~~ died or she is far from ~~her their~~ family for any reason the father could take care of their kids as responsibly well as their mother.
