

A large number of deaths are caused by road accidents. Why do so many road accidents occur? Make recommendations that would help to reduce the number of road accidents.

Road accidents are responsible of death and many car crashes happen all the time and based on some evidence, there are many suggestions ~~s ways~~ which people can adopt in order to ~~with pursue it an~~ diminish road hazards.

Many accidents are caused by bad driving habits-speeding –poor road condition and over-confidence, by this I mean, when you are driving without ~~ant~~ obeying the laws, it causes many accidents smash. For example: driving with over 120 ~~kph Km~~ speed and ~~don~~ not paying attention to any sign or talking with your partner, all played a part.

Furthermore, poor road conditions ~~are is~~ one of the other factors that officials governors must contain ~~it by with~~ maintaining and upgrading facilities, ~~nevertheless otherwise~~ many road fatalities can occur.

The third cause of accidents ~~s is id~~ over confidence, some psychologists believe that many people, particularly juveniles, are willing to drive recklessly, by which tis I mean, they do not have enough experience and they are fond of driving with high speed.

One of the suggestions ~~s ways by which that~~ we can decrease the number of accidents ~~is id~~: public education, to put it simply, underestimating the family values ~~of family~~ is wrong since every training just is commenced by family after that officials governors paves the way for advertising and putting up making banners in the street and one of the indispensable ways that you can reduce the accidents is: penalizing disobedient drivers, here I am referring to some examples: when governments define a policy for punishment and must apply it, ~~so~~ other people should follow it, it causes them they cannot not to forget their errors and remember all ~~the consequences od precedence~~.

Putting Everything into consideration, not only should we expect ~~to~~ training from the government, but we also should develop a condition in which children learn to obey the laws in schools and among families because it has positive affordable effects in their life style, and last but not least, the more education, the safer the roads/driving more safely laws.
