REASONS OF AIR POLLUTION IN TEHRAN

Air Pollution is one of the most serious problems ~~in~~ all around the world . There are many reasons for air pollution such as climate , weather , industries , factories , cars ,population , ~~etc~~ . But being ~~centered~~ the center of every~~thing~~ thing and having ~~bad~~ improper urban planning are both of the most important reasons of air pollution .

Most ~~of~~ people think factories and industries are the main causes of air pollution , so according to this opinion , Munich must be at the top of the list in this case or also Hamburg~~er~~ compared to Tehran, but they aren`t .

New York is one of the most crowded cities in the world . It has many high towers , big shopping centers , many visitors ~~on~~ during the day , different kinds of vehicles ; also it is bigger than Tehran but it is under Tehran ~~at~~ on this list .

Los Vegas is surrounded by the Nevada desert and has an arid climate~~nearly occurred in hot weather~~ , but it has less air pollut~~ioned~~ than Tehran .

Why most ~~of~~ cities ~~of~~ in developed countries have less air pollut~~ioned~~ than Tehran ?

It refers to urban planning . When there is no idea or ~~correct~~ proper plan behind building and developing a city like Tehran , it cause~~sd~~ ~~of~~ ~~unbleavable~~ unbelievable problems for towns , especially people's lives~~living~~ and their healthy~~y~~ . ~~Locating~~ the location of factories , airports , industries , and also Designing of highways and houses , holding green nature spaces , managing the commercial positions and residential~~ce~~ places would be so useful to decrease air pollution . Almost Satellite cities , the new design of megalopolises ~~huge city~~ , could ~~have~~ solve~~d~~ the problem of air pollution .

Also , ~~exsodusing~~ decentralization ~~center~~ of every~~thing~~ ~~thing~~ would be the best decision to solve this problem for Tehran . As a result , people ~~will~~ would

immigrate from Tehran to other cities . And maybe Tehran ~~can~~ could breathe a sigh of relief finally .
