

Celebrities such as athletes, actors and musicians earn large salaries compared to other professionals. Some people consider this unfair, while others think that celebrities deserve to be paid a lot for the work they do. Discuss both points of view and give your opinions on the subject

It's certainly true that celebrities earn more income also they are present cooperative in many advertisements which are not related to their carriers-careers or many department stores, hotels, restaurants and more places will be established because of their fame and fortune.

People who are against ~~to~~ this idea claim that their education in many cases doesn't show any direct correlation with their activities but an obvious positive point has been have determined; they have much effort-much to be professional so, education and theoretical matters can't be a satisfied-satisfactory response for those who have talents and abilities.

Many believe, celebrities can't live as comfortably such as others. Not only are they under people's s-s scrutiny look-(focus), but also their family are ready to face deal with many strange gossips. They can't be free ~~in~~ everywhere. Always people are keen to take autographs/signatures or take several pictures with them. Life is hardship-certainly hard for celebrities ~~certainly~~.

~~The last point that I mention finally~~, their "magnificent life" wouldn't ~~be last forever for a long times~~, perhaps their salaries must be saved for future when they do not have hadn't any positions for them or whenever they will be retired.

They perform voluntarily or travel to poor areas to be beneficial members in the world, for this reason, they can be a perfect/greatfabulous example especially for the youth.

I believe they live in difficulty, so, if they have been chosen by talent not payola and favoritism, they deserve ~~for some~~ part of their income which they gain with their deeds not for their appearance or impresamotto.

To conclude, the outcome will depends on a number of personalities, in fact they are cusses of many exciting and entertainment actions in our life, so, we spend an enormous price to enjoy our life and being happy.
