

Physical appearance may play an important role in many spheres of life: in the person's success in school, in relationships with people, in the choice of a career path. Say whether you agree or disagree with it, and if you see it as a positive or negative factor.

---

If we see around ourselves, we ~~would~~ see many successful ~~ones~~ people who, besides their endless efforts, ~~they~~ try to look nice and neat. Although, ~~they~~ may look not very ~~luxury~~ luxurious, they are very orderly and tidy. I believe that this point can assist them in achieving success and it is extremely effective.

The first benefit of being well ordered is that nobody likes sloppy people. It is disgusting for ~~everyone~~ many to communicate with someone who ~~is~~ has ~~poorly dressed~~ bad shapes and clothes. ~~In~~ on many occasions, it is very important to dress properly ~~in~~ with an official ~~suit~~ coat and if you ~~wear~~ wore something else, it would be disrespectful to ~~the~~ other party.

The other advantage of being in order could be that good-looking people release positive energy to their surrendering environment. It is truly pleasant to be around someone tidy and as a result it can aid in doing every activity better, ~~thereby increasing~~ hence increment of the rate of success.

On the other hand, we should not let an attractive appearance fool us. Providing an incredibly handsome appearance is not a hard task while being an honest person is the real challenge in life and we should separate those who are trying to trick us from ethical ones.

In conclusion, not only does a fairly neat look help us to be more acceptable in society, but also it would be a positive energy for those around us. However, there are villains who make their best effort to deceive us by their proper appearance and we should be aware of them.
