

Some businesses now say that no one can smoke cigarettes in any of their offices. Some governments have banned smoking in all public places. This is a good idea but it takes away some of our freedom. Do you agree or disagree?

---

Smoking is one of the most popularly harmful habits that our society ~~have~~ has been suffering. Not only is it damaging to the person who is doing it, but also it could have effect on those around that person. Therefore, we should put some restrictions ~~for-on~~ doing this habit. I believe the best limitation could be banning smoking in closed areas.

As everybody knows, the smoke of the cigarette has many disadvantages for everyone who sniffs s it. Its most important harm is raising the probability of getting cancer. Those who smoke ~~has~~ have more potential to get cancer ~~rather~~ than their non-smoker counterparts. Cigarettes s can be detrimental to other body parts of human-beings, like teeth and ~~longs~~ lungs too. If you smoke, your teeth can be ill sooner and you will be faced with many long /chronic diseases very soon.

Moreover, we cannot allow everybody to smoke everywhere they wish, just because they have the right to be free. If an action causes s harms to other people, it should not be permitted by the law to take action in the first place. Then we should ban smoking whenever it is dangerous to others.

On the other hand, we have no right to stop people from smoking. Everyone who is an adult has the right to determine for himself themselves if they he can smoke or not. Therefore, we should ban smokers from smoking only when they harm others. For example, in any place that has plenty of fresh air such as wide open areas, it is harmless for others to smoke and if ~~if~~ we ban smokers from smoking in these areas, we are violating their right to be free.

In conclusion, although smoking is injurious for our health, it is unfair to force smokers to never smoke in public. It is reasonable to ask them to put their cigarette away when they are in a closed area, but we have no right to make them never smoke.
