

- Topic: Some people think that music brings only benefits to individuals and society. Others, however, think that music can have a negative influence on both.

Beethoven said “when speaking ends ~~the~~ music starts”, actually music is the other way to speak. Nowadays music is being taught in school in most of the countries. This didn’t happen automatically.

Let us not forget when somebody plays ~~the-a~~ musical instrument ~~he/she/they~~ must synchronize the mind and hands with ~~the~~ eyes and ears. In conclusion, anybody playing ~~the-a~~ musical instrument ~~is less likely to will never~~ get Alzheimer and it’s the least we can do for ourselves as individuals. However, there are a lot of advantages that I could mention ~~but one of them~~ one of which is that music helps our feelings grow deeper together with our rational part. This helps ~~in-~~balanceing our character.

In spite of ~~the~~ benefits of music, there are some side effects that ~~is-~~counted as ~~if~~ disadvantages such as when our careless/~~inconsiderate~~ neighbors are listening to ~~the-~~ loud music or when we use the headphones excessively ~~which-~~ might hurt ~~for-~~our ears. Moreover, surveys have shown the reason for a number of accidents ~~was-~~ has been listening to ~~the-~~ loud music (music that makes you lose control)

Finally, any phenomenon could have advantages or disadvantages. It depends on human ~~kind-kind~~ how to use it, in a right or wrong way. On the other hand, it’s our decision to whether make a benefit or loss of any event.
