

In many countries women no longer feel the need to get married. Some people believe that this has ~~become-enabled~~ women ~~are-able~~ to earn their own income and therefore ~~do-not~~ need the financial security that marriage can bring.

To what extent do you agree?

Nowadays, the rate of unmarried woman is significantly increasing. One of the undeniable problems is that women are more and more independent in terms of financial status and they are able to supply themselves without setting up family.

First of all, having ~~to~~ access to education, and aware of individual value, women have become conscious that they possess sufficient physical and intellectual capability to achieve ing the same position in society as men instead of standing behind them. Moreover, pecuniary independence of females can significantly play a role as ~~much~~ important as that of men in society. They think that expecting a baby and ~~homework-housework are~~ prevented them from their progress for manifesting their potential abilities. These females not only bear the personal expenses but also cover the expenditures of family. They tend to be free under no compulsion to daily activities such as going out with friends, or purchasing. in addition, when women are very privileged They typically come up with sophisticated issues and solve problems easier than men.

Immense satisfaction and financial security ~~certainly-certainly~~ bring sheer happiness and totally deter Them from getting married. on the other hand, they cannot trust anyone for making their future. They prefer to being powerful financially wise to support ing another one ~~—, otherwise-on the other hand,~~ they are afraid of a partner who harasses them physically and sexually ~~them~~. Women either tend to ~~marriage-marry~~ or have financial independence ~~of financial~~ that can be an inner ~~dichotomy-conflict~~ emotionally.

To sum up, it is my firm conviction that, a reliable Income with which women are able to supply themselves is necessary. they prefer to achieve social status and then they will be able to find the right person as a life's partner.
