In many countries, the amount of crime is increasing. How do you think are the main causes of crime? How can we deal with those causes?

Nowadays the amount of crime has grown ~~becomes grow~~ worldwide. Many factors such as a suffering/weak economy, unemployment, ~~far~~ numerous law restrictions, religious extremists ~~fanatic's~~ growth, drug addiction spread, misbehaved parents, guardians or teachers may cause this crisis, for which I will provide the main reasons in this essay. As far as I am concerned, a large percentage of these factors are the authority figures' duties and they have to figure out how to deal with them in order to protect their people from serious crimes and criminals. Obviously ~~As we know~~ most of the times the media, especially the governmental ones, distract the public in many ways and despite the fact that they claim it will benefit ~~the~~ society, they should consider that people deserve to become informed about what happens around them.

From my point of view a suffering economy, unemployment and drug addiction are major reasons which can cause ~~provide~~ serious crimes and require certain attention. Some argue that to resolve these issues, governments should improve the economy. It is true that in this special topic, an affluent society may get less harmed comparing to others, but it may not necessarily prevent crimes in society. Although in such societies unemployment may not be an issue , ~~but~~ still drug addiction can be. They may enhance the quality of life but still they may not be able to eradicate child abuse. All of the mentioned factors are somehow connected ~~which~~ each of which ~~one~~ or the whole can lead to committing a crime.

In conclusion, to stand against the increase of crime in the world, we need to improve our educational system to raise conscious~~ness~~, healthy-minded and compassionate people. This can be the best way to contribute to society ~~ies.~~
