

The internet has transformed the way information is shared and consumed. But it has also created problems that did not exist before.

What are the most serious problems associated with the internet and what solutions can you suggest?

Today in the technological cutting-age era the internet plays a significant role in ~~the~~-society. Thus it leads to expanding the information rapidly. There are number of obvious merits and demerits regarding utilizing the internet. In this essay I am willing to discuss two chief drawbacks of it.

At the outset, It goes without saying that the most apparent one would be ~~accessing~~ the children ~~accessing~~ to forbidden websites. Clearly everybody owns a gadget of some sort and children are not an exception. Not only are ~~this-thses~~ belongings easily accessible but also they are handy. Therefore, because of curiosity and enthusiastic of children they have this opportunities to surf on the internet conveniently. They encounter ~~to~~-some information which ~~are-is~~ not suitable for their ages. For instance, ~~they-there~~ are some pornographic sites available that ~~they~~ impact ~~to~~-their personalities so they claim to be an adult. Ergo, parents and government should restrict and ~~banned~~ these websites for the children. In addition my ~~form-firm~~ conviction is that not only ~~do-are~~ parents obligated ~~d~~ to ~~caring-care for~~ their offspring but also they should monitor carefully.

Likewise, sensitive information falling into the hand of criminals. It leads to fraud and hacking. They can abuse your account. For example, most of the people are using the internet to purchase some goods. They enter their pin of ~~the~~ credit card. It may leads to some cyberattack. Hence, we should take some ~~measurement-~~ ~~measures~~ to secure our websites and inform people from the ~~probably-probable~~ danger of these attacks.

To sum up, in my ~~opine-opinion~~ we can explode a lot of useful information for prospering of abilities and building our society. We should use it ~~awareness-~~ ~~consciously~~ for thriving ~~of the~~ society.
