Some people say it is important to keep your home and workplace tidy, with everything organized and in the correct place.

What is your opinion about this?

Give reasons for your answer and include any relevant examples from your own knowledge or experience.

Many people believe that organizing things and keeping our environment and surroundings neat plays a major role in our lives. Some people like me are of the opinion that tidiness is of important significance. In my essay, I will explain and depict it in-with a couple of reasons.

First of all, it will affect many things, the most important one of which is its impression on our mentality and behavior. Imagine when you are working in a clean and well-ordered place how much you feel restful and relaxed. Moreover, I had my own survey in this regard there is a direct relationship between neatness and Feng Shui that affects s our mind and spirit which gives s more meaning to our lives. If you put everything in a specific place you can find it more easily. As an example, when you are in a hurry or trouble, you will be confident and totally relaxed where everything is. Although, you should not be too meticulous in this respect, because you become fussy and you cannot enjoy your life.

Secondly, being tidy and disciplined will attract more positive energy and good vibes. According to a recent survey, the more you have positive attitude the more you will be successful and lucky in every aspect of your life, so we should make everything organized and tidy in the correct place. Furthermore, for famous companies being tidy and punctual is a strong point. Due to the fact that we consider it a major part of our lives. If I myself live or work in a a messy and disorganized places, I will lose my concentration and I cannot stand it, in that I absolutely believe in spruceness and tidiness. As I remember, I was invited to a competitive job interview in which having discipline was a key feature.

To conclude, I believe that it is utterly essential to keep our home and workplace in order. Not only, dose being organized give us pleasant vibes but also it provides confidence.
