

Do you agree or disagree with the following statement ?

playing computer games is a waste of time . Children should not be allowed to play them . Use specific reasons and examples to support your answer .

It is no doubt nowadays technology especially computers ~~are~~is an inseparable part of our life chiefly for the new generation . In my opinion, we cannot ~~allow~~forbid ~~to~~ children ~~from~~not ~~playing~~playing ~~with~~ them because they ~~found~~find new hobbies which are much better than the hide and seek game , so I think if we can have control and rules on their computer games , this can prevent injureis otherwise , they will have irrecoverable damage .

First of all , Too much playing ~~with a~~ computer games might ~~be~~ brings addiction and this is a reason of waste of time . When you become ~~a~~ addicted to computer games , your brain cannot order you to do ~~another~~ things because it just concentrates on that game . For example , my little sister is always playing SIMS with her IPad . she brings her IPad with her everywhere even school and restroom . she rarely does her homeworks and her school principal always summons my mother . we were tired of this situation , so my dad strictly decided to make rules for her games . He allowed her to play with her IPad three times a week for an hour . At ~~the~~ first, she got angry but now she comes to terms with these rules .

~~Secondly~~ , ~~moreover~~ in addition to addiction, it can cause disorder for their eyes . It can ~~increasing~~increase the risk of eyes syndrome , lazy eyes , focusing problems , blurry vision and headaches . For instance , I have to work daily long hours ~~with~~on the computer and I feel my eyes ~~become~~becoming weak . Now you can imagine children playing computer games for long hours .

Ultimately , ~~in~~from my viewpoint , If we can ~~lead~~manage the time of playing computer games , we reduce the risks of it . Neither does it wastes much time nor does it endangers the health of children .
