

Some people believe that the world is much less safe today than it used to be. There are still many wars being fought, and high-tech weapons are sold openly to any country that wants to buy them. In cities, violent crime is increasing every year.

It is not a very safe world in which to bring up a children. Do you agree or disagree? Give reason for your answer.

\*\*\*\*\*

Conflicts between the world's population have not begun recently, ~~it-they~~ had existed before starting human's civilization. We hear commencing or increasing tension among countries or governments every day. ~~Have-Having~~ invested huge amounts in military equipment, that ~~areis~~ designed and produced with modern technology, the governments want to protect themselves against ~~disputes-threats~~ with the other countries. ~~The~~ Public are worried not only because of tensions between nations, but also for increasing ~~savage~~ among citizens. Some groups believe that in this situation the world is not as safe as previously to live and it is not rational to bring up new generation. To my mind, though the ~~disputes~~ ~~haveare~~ increased, the world is less hazardous for the human ~~compared/next to~~ the previous century.

Nowadays, all ~~around~~ the world are dominated by the mass media ~~which covering~~ all events and ~~reflecting them to the~~ community. As result of ~~which~~, people ~~have-are~~ informed ~~of~~ the all news regarding the conflicts between countries ~~are-and~~ any violent action in cities. though ~~the~~ common ~~people~~ may be thinking the world is less safe as result of the more report of the fights, the societies show great sensitives to this events and many NGO and people are embarking upon activities against the wars and violence. For instance the reaction to the Gulf war 2 - between Iraq and the USA- ~~are-was~~ more ~~intense~~ than Vietnam's war because of ~~the~~ influence of the media.

The public awareness against the wars and ~~savages~~ ~~are-has~~ increased, ~~-~~ that is why the governments are not free to start new fights the same as they did before or In the cities the crimes are ~~prevented/~~confined even against animals. We can find many books, lectures, TV shows or articles that emphasize the peaceful societies for every one. In ~~the~~ previous century, the history ~~were~~-recorded many wars and ~~savage-savagery~~ by genocidal regimes, such as ~~which-what was~~ happened in ~~the~~ Balkans.

To sum up, in my opinion the world is more safe than it was and can be more secure as result of humans' activities against the fight and war.
