

**You have been told that dormitory rooms at your university must be shared by two students. Would you rather have the university assign a student to share a room with you, or would you rather choose your own roommate**

During of studying in university, the students are separated from their families for the first time and staying in a new place. Unfortunately, the most of dormitoriesy have limited facility .therefore, I prefer to choose my own roommate. Firstly, she must be close to my culture, and taste .secondly, ; we can share responsibilities and duties. Finally, we can help each other in lesson.

When you live in a dormitory, maybe you have a problem because you live in a new city with a different culture and being away from your family for the first time. on the other hand, people have different opinions about something even this is 's/ it's true for two Childrens in the family so I prefer to live with my friend, my classmate or anybody who is close to my culture and I am familiar with her manner and behavior.

The dormitory leads to fundamental changes in students' life. You can share responsibility such as cleaning the room, cooking, household shopping, maybe this is the best advantage of having a good roommate, especially when you have an exam or you are sick. on the other hand, these will prepare you for the future.

~~My Your~~ roommate can help ~~me you with in my your~~ lessons or we work together on a paper because we have a lot of time for studying and researching at home in our subject. Therefore, we can be more successful in university .According to a ~~the~~ research in a dormitory, ~~the~~ students who live with their classmates are more successful than other students.

In a nutshell, I personally believe that my roommate inadvertently unwanted have a huge impact on me in during of studying in university. Therefore, I prefer her to be close to my culture.
