

It is sometimes said that people should be encouraged to get married before they are 30, as this is best both for the individual and for society.

Do you agree or disagree?

In this day and age, people's daily problems have influenced every aspect of their life and one of them is their marriage age which ~~has~~ ~~have~~ consequently increased especially after ~~the~~ industrial revolution firstly in developed countries and then in developing ones.

Many say the youth must embark on marriage before they aged ~~30~~ ~~more than 30 years~~ ~~to~~ not to lose the opportunity of giving birth to a child in younger ages because it is beneficial for both ~~the~~ mother who would experience pregnancy in the golden years of her life and ~~the~~ child who has the chance of having a healthier mother. Besides, the younger are the parents, the more time they will have to be with their children and watch ~~they~~ ~~them~~ grow up and ~~climb~~ ~~step~~ up the ladder of success and facilitate their life.

~~On the~~ Contrary, although marrying in early ages could decrease the distance between parents and children ~~faces~~ as a result of having babies earlier, parents who marry in higher ages have the option of finding a better understanding ~~of~~ ~~from~~-life or more time for education. In addition, they will have the window of achieving financial~~ly~~ and personal~~ly~~ ~~stability~~ ~~stable~~ ~~circumstances~~ and they will construct a more perdurable life.

From my point of view, ~~couples~~ ~~lovebirds~~ who have started their mutual life earlier will experience a better taste of life as they put ~~on~~ every brick of their life together and develop maturity and wisdom earlier. Besides, they can manage their life to make it extremely effective economically and socially, and have their graduations ~~besides~~ their routine life.

For the last words, as the ~~building block/corner stone~~ ~~consisting~~ ~~bases~~ of any society is its people, if they have advancements, ~~the~~ society will grow up and develop, and every advantages ~~that~~-mentioned for people can be considered for families and could be expanded to the whole society.
