

Some people believe that it is good to share as much information as possible in scientific research, business and the academic world. Others believe that some information is too important or too valuable to be shared freely.

Discuss both these views and give your own opinion.

Thanks to the improvements in Information technology, getting information ~~easier~~ more easily and having free access to it ~~freely has~~ have aroused controversy over the recent decades. Having Access to information has undergone a dramatic change over the past few years, The internet has contributed ing to this change, and now people have easier access to the internet and information. Whether this free and easy access has ~~bring~~ brought benefits to ~~the~~ society or not will be covered in this essay.

First and foremost, concluding that easier access to ~~the~~ information has brought quite a lot upsides for society is an undeniable fact. Comparing the level of knowledge of 2000s generation to that of 1970s, we can observe a significant expansion in the horizon of the former one. Proponents of sharing as much ~~as~~ information as possible think ~~s~~ that when a community wants to develop in every aspects, having access to ~~the~~ information is inevitable.

On the other hand, there ~~has~~ have been ~~a~~ numerous debates over whether this broad knowledge has ~~bring~~ brought benefits to the young generation or not, ~~is still on doubt~~. Opponents firmly believe ~~s~~ that, for the sake of a community there ~~are~~ is some information which should be always ~~keep~~ kept confidential. They believe if every ~~spectra~~ spectrum of ~~the~~ populace ~~having~~ has access to ~~the~~ information easily and freely, it can drive ~~s~~ a society into ~~a~~ chaos.

To sum up, from my point of view although there ~~are~~ is some classified information which cannot be shared with public, having access to information easier contributes to develop ing one's nation. Therefore, the benefits of sharing information as much as possible far outweigh its drawbacks.
