

Some people say that the only reason for learning a foreign language is in order to travel to or work in a foreign country .Others say that these are not the only reasons why someone should learn a foreign language.

Discuss both these views and give your own opinion

There is a controversial issue as to whether mastering a second language is useful just in cases like working and moving to the other countries or ~~involving~~ the other reasons ~~are involved~~ as well. From my perspective, learning a non-native tongue not only is a must-do proceeding for living or traveling abroad, but also it plays a significant role in both enhancing international communication skills for business promotion and making you ~~account~~ ~~informed a~~ ~~lots~~ about other cultures as well.

Firstly, it is worth mentioning that if you are supposed to be occupied or stay~~ed~~ in a foreign ~~nationcommunity~~, ~~conceiving-acquiring~~ the new language is like ~~a~~ bread and butter. ~~If you have Had-~~ ~~you~~ no ~~knowledge of cognition to~~ that second language, you could not even deal with ~~the basic/~~initial needs of the routine life. To illustrate more, your everyday demands like purchasing ingredients from ~~the~~ supermarket would also be a challenge, let ~~along-alone~~ dealing ~~with~~ more complex issues like medical or ministerial ones. Thus understanding an unfamiliar language can pave your way and ease your life while you are ~~in-~~abroad.

Furthermore, knowing a second language is a pressing issue for development in trades even within home ground. International-scaled businesses need communications via the language almost everyone knows, otherwise you cannot comply with other companies in distance. To add more ,~~access-~~ ~~mastery of~~ a language other than yours turns ~~a~~ new leaf which leads you to possess a great perception of other cultures and their specific ~~habitudeshabit~~, ~~hence-consequently there will~~ ~~significant growth in mind~~ ~~a-growing-mind~~.

The obvious conclusion to be drawn among the reasons involved above , ~~is that~~ I tend to believe that learning ~~a~~ new tongue is always ~~a helpful an-affirmative~~ procedure, which is ~~lucrative-useful~~ for both ~~the~~ terrestrial and spiritual aspects of our lives. All in all, the more foreign languages you ~~dominatemaster/learn~~, the more enhanced life you will be promised.
