

Following a saying that says “A picture is worth more than thousand words” news stories use the pictures to affect more. Pictures show the news in details in a shot, briefly and usefully. Also a picture is ineffaceable in our brain.

In many education methods it is common to use pictures. It is why-because they are more effective to learn and remember. This reason has similar effect in news. Pictures in news help us to understand it at a glance. This approach is useful to review all news and read deeply which is attractive to us.

Moreover, nowadays we use applications which are based on pictures. The most popular of them is instagram. How do you feel when you use it as a tools to find news? Many news channels use it to show the most important news in a picture with a short caption. With this huge using of this application, we notice significant effects of pictures.

Have you ever seen a caricature in the news? How did you feel? Was it more illustrative than words? Caricatures show both sides of the news either good or bad with art and a little scoff.

~~In~~to conclude, we can't omit the effect of pictures in news whether in a newspaper or ~~in~~on TV. Pictures show us news more than words in a short and fast way. Don't forget that saying which was referred to at the first.
