Some people say that it is possible to tell a lot about a person's culture and character from their choice of clothes.

Do you agree or disagree?

We live in an age when many of us pay attention to how ~~to we~~ put clothes on. Some people are dressed as ~~simple~~ simply as possible ~~when~~ while some of them choose strange clothes. ~~Somebodies~~ some choose their clothes based on their conditions such as formal clothes for the office or university. All people have their reasons as to how to choose their clothes. In my opinion, our clothes couldn't show our culture and characters, because of existence of conditions which force us to select clothes.

Let us ~~to~~ take a look at position conditions. For instance when we work as a politician, we must be dressed such that as well as it shows our power, respect and confidence. Also some companies have special clothes for ~~themselves~~ themselves and all employees have to put them on. Moreover, when we go to school, all of us are supposed to be dressed the same. In fact we have a lot of examples to show how conditions changed our clothes style and it is never related to our personality or cultures.

What is more we have to respect our social rules of dressing in our country. For example some countries like Iran, hijab for women is necessary as a law, so all women regardless of whether they like or hate it, have to have hijab. Furthermore, in local ceremonies, maybe we should put a special dress on. When we go to a funeral, we have to be dressed for a funeral ceremony. You know it is an ~~obligate~~ obligation not our characters.

After all, we can look at famous people who put on in different ways. ~~Few might~~ Do you know Mark Zuckerberg always puts on the same clothes? He believes that spending time ~~to choose~~ choosing new clothes is time wasting that causes us to postpone more important activities. In addition, Mahatma Gandhi always ~~is~~ was dressed as ~~a~~ poor and

nobody ~~think~~thought he ~~can~~could be a leader and make a big change in India. Here we can see power of our characters. It shows us our thoughts and ~~believes~~beliefs is the most important factor. People can know us by our behavior not by our clothes.

All things considered there is no sign to ~~s~~judge people's personality by their clothes. There is a saying that goes, "clothes don't make the man". Conditions and our priorities force us to choose ~~a~~ suitable clothes for our position and it never refers to our character. We make and show our character with our ~~believes~~beliefs and behaviors.
