Nowadays, technology is increasingly being used to monitor what people are saying and doing (for example, through cell phone tracking and security cameras). In many cases, the people being monitored are unaware that this is happening.

Do you think the advantages of this development outweigh the disadvantages?

In this day and age, with rapid technological development ~~by developing technology rapidly~~, monitoring people through goods such as mobile tracking and security cameras has risen so that sometimes even people do not know they are being controlled. However, this ~~issue~~ essay aims ~~has written~~ to consider the pros and cons of this new phenomenon.

On the one hand, I prefer to count some positive points of this monitoring and the main aim of producing this technology. With increasing population throughout the world, the threat of ~~raising~~ the rise of groups ~~being~~ against ~~of~~ the governments and the world has gone up too, so people should prevent unpredictable disasters of these kinds of happening, hence the ~~most~~ big ~~important~~ importance of the advantages of this new phenomenon.

On the other hand, by using technology wrongly, I mean to engage in espionage especially in the people's private lives, through the government or some secret agents, mankind may lose ~~their~~ his trust of government and it bothers them. Moreover, by stealing ~~some humankind's~~ people's private information, thieves can ~~rob~~ steal money ~~on~~ in people's accounts and also abuse them, so they may feel unsafe~~ty~~ when they are under the control always. Thus, the disadvantages of monitoring humankind.

Finally, ~~with~~ by considering both points of view, people can obtain the result that If technology ~~does~~ is not used for the main goal of producing, not only can it have extremely disappointing effect on society all over the world, but also ~~destroying~~ destroys some human~~'s~~ rules and ruin~~sing~~ positive ~~human's~~ humans' view. From my point of view, living in such society ~~that~~ where everything is controlled is ~~disappointed~~ disappointing and people cannot trust others or even ~~worst~~ worse they are not comfortable in their own house.
