

showing how people become older their mind change in their interest, the table illustrate the most popular tourist destinations in deferent ages in city of Llorente. Indeed, it is so restriction and just mentioned some hobbies.

According to survey, by the age increasing, people's favoured to go night clubs, discotheques, beaches and in some case national park decline, somehow sometimes figures show steep falling such as discotheque or night clubs dropping 87 percentages to 5 and 78 percentages to 15 respectively. On the other hand, others hobbies such as going to art galleries, museums sporting events and zoos is become so interesting for old people, somehow in some cases its figures become more than twofold or threefold such as zoos and museum which jumped from 12 to 49 and 8 to 29 respectively. Although it is obvious that in most case the trend is steady upward or downward, in some cases it seems fluctuated and does not follow this rule. For example in Cinemas and theatre, National parks and shopping centres, it goes up and down and it is erratic.

Finally, it is clear that by increasing age, not only do not people people's lifestyle stand steady, but even their opinion and their hobbies will change.
