

Do you agree or disagree with the following statement? The best way to travel is in a group led by a tour guide. Use specific reasons and examples to support your answer.

Nowadays, many people plan to go on a trip to other cities or even countries. It is the best way for relaxing and enjoying in a different place away from your hometown. Having a vacation not only needs free time, but also it requires money. people can choose 2-two different ways for travelling. They can go by-in a couple-of-people-group in a form of tour or travel on their own. In my opinion a journey by a group of people with a tour leader-guide has both advantages and drawbacks.

On the one hand, having a tour with a group of people by a tour guide offers a lot of benefits for travelers. For example, if you decide to go abroad and go on this trip by a tour, you can have the opportunity to see all of the destination's places, and sights, etc. ~~Thanks-to~~ with the aid of a tour guide, they can show you a lot of places that you don't know anything about ~~them~~ and you don't need to waste a lot of time ~~for~~ getting information about the places for finding them. Furthermore, having a trip by a tour leader-guide offers more advantages to people such as easy and convenient transportation. In some countries the prices of fares are very high and it is not rational to commuting-commute by taxi. Having said that, with all of these features you have to pay extra fee for tours and sometimes the prices of these facilities are not fair/unreasonable.

On the other hand, although taking a trip by-with a tour leader-guide confers a lot of convenience ~~as-I-said-before~~, it has some negative points. By travelling with-on tours you don't have me-time. You have to travel and see the different places with-on a schedule. Sometimes you have to wait for other people of your group to assemble and it may become annoying. If you travel on your own you have the opportunity to take in the scenery and enjoy your moments freely. You may have your own way for getting around like shopping, etc.

To put in a nutshell, based on the aforementioned explanations, going on a trip by-with a tour leaders-guide has both ~~the~~ desired and adverse points for travelers.
