

It is certainly a fact that today , traffic congestion is the main concern in metropolises like Los Angeles , London and Hong Kong especially in rush hours caused by the hiking number of cars moving across the city to transfer people . This problem is even evident on weekends and holidays since people usually go ~~for~~ shopping or visit entertainment ~~centers~~purposes .

Some experts have suggested limiting people's time spent outside which can be done by giving Technology options . For instance, people can transfer money or order something via the Internet . however , it ~~is depended~~ depends on people's ~~'s~~ will . Some people prefer going to the bank because of the security concerns or some people want to see the product up close .

Some experts say officials should locate shopping malls and entertainment facilities in cities boundaries. It reduces traffic on weekends and holidays . but , it makes people travel longer distances ~~and this leads~~ leading to higher fuel consumption ~~which in turn~~ more fuel consumption ends up ~~in~~ with air pollution. ~~It may creat~~ inge more problems than it solves .

So , In conclusion , There are a few ways to solve this problem like locating building shopping malls outside the city but they also have their own side effects . at first , authorities should consider the pros and cons and then decide which way is more practical .
