

**Do you agree or disagree with the following statement? In order to be well-informed, a person must get information from many different news resources. Use specific reasons and examples to support your answer.**

**It is obvious that in our modern life there are many diverse sources to update our information day by day such as ,Internet, different kind of newspaper, broadcast like satellites, Televisions and so on. From my point of view get information from many various news resources is more beneficial for a couple of reasons which I explain in this essay.**

**The first and main reason which can be on the top and covers other reasons is " news accuracy" which means you have to be sure the news you heard is true. In other words, checking various source about a one news, it can guarantee the veracity of that news. In that case you must searching the news from national tv and newspapers even Internet. Besides, by ~~checking~~ checking different sources you can distinguish between false and correct news report. For instance, there are some news items which have security ~~stance~~ aspects and almost the national tv and domestic newspapers do not consider correctly or completely. The worse and most recent example of this case can be the fall of the Ukrainian plane by the Iranian army. If there was no pressure from foreign governments, the Iranian government would not admitting the truth.**

**Another important point is that, by reading diverse resources you can access more comprehensive information. Most of the sources belongs to one person or persons, they covers every part of the news which they wants, so you should use several media. For example, when Donald Trump, the 45th U.S president lectures, ~~reports~~ Iranian news agencies report wherever whatever is related to Iran or war but he might speaks about economic or astronomical expansions, so in some case you should survey national news and international news.**

**Ultimately, because the news is one of the notable part of our life, so we must access authentic and plenary news ~~that it~~ which can be a little tough because the position of governments, so it should be better to read different resources and ~~do~~ we should not publish the news before ~~you~~ we are ~~not~~ sure of it.**
