

Although tourists in many countries are a significant source of revenue, they are frowned upon for various reasons. For the tourist, however, travelling is supposed to broaden the mind and be an educational experience.

In what ways do you think travelling does this?

And in what ways do you think travelling does the opposite, i.e. narrows people's mind?

~~The~~ Tourism industry today ~~is~~ recognized~~d~~ as a major source of income for many countries which have particular features that attract individuals to visit ~~them~~. These features can be the unique nature and glorious weather or indigenous culture or even gastronomy and shopping. All of these attractions are new to travellers so, Inevitably, prompting initiatives intended to heighten people's awareness about this issue is necessary otherwise host countries encounter ~~with~~ irreparable damages.

Travellers should be educated well about the destination they are going to visit and also peoples ~~s~~ in tourist destination~~s~~ about hosting travellers in professional ways as well. Because if they do not have enough information tourism can cause many problems such as enormous damage to the ecosystem and serious forms ~~s~~ of pollution.

~~In-on~~ the other hand, tourism infrastructures have a key role in deterring negative impacts that may endanger locals ~~s~~ rights~~s~~ or environmental rights. For example, providing appropriate accommodation facilities and communication facilities.

After these basic things ~~/~~considerations now travellers in a sustainable way can benefit ~~farm-from~~ having valuable experiences by ~~getting acquainting acquainted~~ with and ~~immerse-immersing~~ themselves in different cultures and ~~getting inspiring-inspired~~ from intact nature and also ~~release-releasing~~ negative feelings such as stress and anxiety.

All in all, my firm conviction is that travelling without having a sufficient knowledge ~~can~~ not only ~~not be useful, there is room to expect achieve and poduce-~~ the useful results~~s~~ and broaden the mind or bring ~~tranquillity-tranquility~~ but also ~~can~~ cause a lot of anxiety and fatigue.
