

***Some people prefer to live in hot climates. Whereas others love the lifestyles in countries with cold climate.***

***Discuss both views and give your opinion.***

Climate plays a ~~magnificent~~ significant role in a country's culture ~~in~~ all over the world ~~on~~ in tradition, and even ~~on~~ the economy. People sometimes debate whether it is better to live in a hot ~~climate~~ or a cold climate.

Those who prefer ~~in~~ a hot climate will point out that warm weather leads to a more relaxed lifestyle. In warmer countries, people can enjoy the beauty of nature more frequently and can do activities like swimming, jogging, surfing, ~~etc.~~ The \ a Warm climate is not only pleasant but also ~~is far~~ kind to the poor. Warmth means people can survive more easily this is important to elders that need a warmer environments. This may indeed be true, but many diseases, such as malaria, flourish in warm climates.

While those people who like colder weather will say the cold is bracing and helps people to be more active and productive. They will argue, moreover, that people have learned to be very ingenious because of cold. People enjoy the beauty of snow such as making a snowman, snow fights, skiing, ~~and so on~~. The argument will probably never end because of the ~~verity~~ variety of beliefs, experiences live in many climates. And

Of course, many of them always want to enjoy both types of climate at the same time of year like Persia, ~~n~~ our country, where that people can fly in with less than 2 hours you can see from the coldest to the hottest place.

In conclusion, climate is a very contentious/controversial subject topic. ~~This essay discussed why some~~ people love cold or hot climate for and ~~their~~ advantages and disadvantages ~~of them~~. Of course, I,

personally, love a 4-season climate, and cannot~~do not~~ tolerate ~~of~~  
cold or hot.
