

The Plans are informing us about how a university's sport department currently is and how it will change during reconstruction. First, we can observe the ~~remained~~remaining features of the sport center such as the central pool ~~with which~~ is 25m wide has stayed the same and so ~~are~~has the changing room in the west of the pool and seating in the east side. The reception and the entrance which are located towards the south have also stayed as they were. However, there will be some enlargements going with the Gym. ~~It~~ which will expand to the east and they are planning to remove/eliminate both of the outdoor courts beside the building. The former plan does not have changing rooms, sport hall or any dance studio. But in the future as shown in the latter there will be two changing rooms in south, one sports hall in the east along with two Dance studios beside it. A Leisure pool will be added in the west side ~~which replaces~~replacing an outdoor court. Some social shops like a Café and a general sports shop will be opened in the south corners beside the changing rooms as well.
