

Tourism is an ever growing industry.

What benefits do you think tourism brings to individuals and society?

Tourism is an increasing business which has numerous advantages for society and people. It seems to me, tourism is one of the most beneficial ~~industry~~ industries in our world for two main reasons. Firstly, it establishes significantly, job opportunities. Also, it is a lucrative business that you can build throughout the world. Secondly, it is an informative business which include ~~d~~ joy and fun.

Each tourist who travel ~~s to~~ abroad will create job ~~s~~ for four person ~~s~~ directly and nine person ~~s~~ indirectly in the host country. For instance, every tourist needs a vehicle to travel, a place to sleep, and, food to eat. It means hotels, restaurants, transportation and other aspects, which means waitresses, drivers, hotel managers, cooks and others. However, these are the workers that a tourist needs ~~them~~ directly. There will be jobs and businesses that are related to tourism indirectly. A tourist is a consumer too, who buys foods, clothes, travel equipment ~~which~~ all of which these lead to factories or farms. Due to all these, tourism is one of the industries that ~~makes~~ creates a lot of job opportunities.

Nowadays, tourism is not just travelling in order to visit a historical place, or a 5 star hotel ~~in~~ on an island to spend a nice weekend for relaxing. There ~~is plenty of kind~~ are various kinds of tourism. Such as sport tourism which has different branch ~~es~~ like adventure, ecotourism, health tourism, cultural tourism. But, there is one common thing about all of them, they are informative. No matter where you go or for what, there is always something new to learn. You can learn about new cultures or geography, history, or anthropology.

As a result, the tourism industry can create jobs and bring people together throughout the world. Also, it has the potential to be educative /educational for all demographics.
