

Num 83

Culture are complex set of knowledge belief art morals laws custom . Modern technology is creating a different world with different cultures. Firstly, it ~~independent of place~~ ~~has without place~~ in other words , no matter ~~where~~ you are ~~where~~ in the world, technology lifts these ~~limitations~~ ~~limited~~. Secondly, It has different types of communication ~~and~~ finally it is compressed time.

Nowadays modern technology such as social media are available all around the world. I think ~~it is not limited to a certain place~~ ~~it's without place~~, people can ~~become~~ familiar with language, culture and customs of others without visiting ~~to~~ those places, they can watch documentaries ~~on in~~ TV or read articles ~~on the in~~ internet so that some word, manner or ~~lifestyle style way-of-life~~ or clothing are universally or sometimes create a new style for example the style of clothing can ~~be~~ combined between ~~to~~ cultures so ~~it~~ can create a new style sometimes people ~~copy/imitate~~ ~~cheated-of~~ celebrities'y manners, they change ~~of their~~ life style without ~~they~~ visiting ~~ed~~ them. Have you ever seen this group of people who ~~blindly follow~~ ~~pay-of~~ actors? With modern technology you can participate in meetings or ~~congresses~~ ~~conclave~~ without ~~having you have~~ presence in those places you use technology such as Skype ,... for participating there

The type of communication is different. I think language and dialect are much changed when compared to ~~the~~ past. Today people prefer to use ~~the~~ virtual world to communicate with others such as Telegram , viber ,... So in ~~people's dialogues~~ ~~dialoged~~ ~~they people~~ use new styles of language for communication, these covering sticker to express feeling or use ~~abbreviations~~ ~~synopsis word~~ or statements in between ~~have~~ created a ~~some~~ new type of relationship which in the past was meaningless.

I think time doesn't matter in modern life. It helps to live much ~~more easily~~ ~~easier~~ and saving time and you don't have any ~~limitation~~ ~~limited~~ in your life you, for example, you can buy something at any ~~time~~ of ~~the~~ day with new technology or prepare food in 15 ~~minutes~~.
