

79. Your city has decided to build a statue or monument to honor a famous person in your country. Who would you choose?

It is a obligation for every countryies to build a statue or monument of a famous person to honor him and show the country 's respect to him. I would like to build a statue status of a person who inspires pride is proud person and has helped the to progress of my country to show respect for from his activities and he is Dr.Samii because he is the father of neurosurgery neurosurgeon of Iran and he is a founder and has done do many charity activities and finally he is the professor of many universities.

First of all he is a distinguished Iranian neurosurgeon and medical scientist. He got his Doctor of Medicine (M.D.) degree in neurosurgery at the age of 33. He was young and so far at that time until now he has received many awards that make him famous. For example 1.Honorary President of The World Federation of Neurosurgical Societies.2. World Physician 3. Iranian Science and Culture Hall of Fame and he got many awards during his life so he is proud person for my country.

Second he is founder of International Neuroscience Institute (INI), based in Hanover, and he has been the president of the International Society for Neurosurgery and was elected as the founding president of the Congress of International Neurosurgeons. also he is founder the biggest hospital in Iran that is located in Rasht. Moreover, he has built build many clinics for charity. He treats and performs surgery on many diseases without any cost from the poor people so he is worthy to build his status.

Finally A major aspect of Professor Samii's scientific career was his devotion to education and enhancement of neurosurgery. From the beginning of his career as the professor of neurosurgery, he put a major emphasis on education of neurosurgeons from all over the world. He held regular annual or biannual courses in micro-neurosurgery in the University of Mainz. Also Professor Samii established the world's first educational course in skull-base surgery in Hannover. he trains many students in Neuroscience so building his status shows to the next generation that he is a big man.
