Many things ~~have has~~ been discovered in the world that ~~have it~~ changed ~~of~~ people's life style in my country totally such as ~~the~~ discovery of ~~druge~~ , ~~the~~ internet. ~~or...~~ but one of them ~~that it~~ was very impressive ~~was~~ oil discovery. Firstly, it ~~had a huge was~~ effect on the economy in my country. Secondly, it led to raising / improving the level of education. Finally, it ~~helped develop cause to~~ relationship with ~~the~~ international community.

In the past several decades, there was ~~n't no~~ denying the impact of Iran oil economy. It ~~cause~~ strengthened ~~the~~ financial foundation, so the government expenditure of oil income on treatment , food or other needs of people for example in my country , the cost of treatment are free or free insurance or people got food allowance or farmer got financial aid in agriculture .oil ~~has a are~~ positive effect on the ~~foundation fundamental~~ of my country , imagining life without oil revenues ~~is are~~ terrible in my country

I think it was directly on education it causes the government ~~to send sent~~ people for studying ~~to~~ abroad such as England, ~~and~~ France. The government decided to established university and school all-around of my country. Teacherss and professors came to Iran for teaching in university in school student were learning English and France , tuition was free , all costs were funded from oil revenues while students ~~got get~~ free food ,uniform , health care from government . on the other hand, they have scientific exchange by oil with other countryies in the area of technology

It helped to ~~get~~ improve relation with the world by oil revenues for example my country was known with this industry to the world while it is powerful and famous manufacturer all around the world. And annual conferences ~~were was~~ held about oil in my country ~~which this cause to~~ helped to the tourism industry.
