

**75. Some universities require students to take classes in many subjects. Other universities require students to specialize in one subject. Which is better?**

University is the place that helps students find themselves and their abilities in society and improve them in the best way. I strongly agree with those universities that require students to take classes in many subjects because of several reasons. First, students learn many subjects that would be beneficial for them in the future. Second, it would be better if the students learn t how to be multidimensional instead of one dimensional. Finally, they can find many friends in each of classes and that improve their socialites.

First of all, students should find a job or they continue their study after their graduationone. When they learn various subjects in university they have achieved d many skills that would help them in their job. For example somebody is an architect and a designer. If they he knows computer's skills, they he can use them it by themselves by self and don't doesn't get help from others because they he learn computer skills s in university besides s his course, so it is an important item for students that to know many subjects.

Secondly if students learn many subjects they extend extensive their information in any field. They have more chance more than students that study one subject because they are multidimensional and they can find a proper job easily. Moreover, Researchers find out that students that know many subjects they have more self-confidence confident than students that just learn one subject, so students should study more than one subject.

Finally when students study in one subject, they may have just find just a few friends during their studies but if they take classes in many subjects, they can find many friends from each of those classes with various personalities and they can assume that they are in a small society and they can learn how to behave towards with them in any situation. For instance students can improve their socialites sociability by attending in many classes and find many friends that they can interact with them.
