

101. Some people like doing work by hand. Other prefer using machine. Which do you prefer? Use specific reasons and examples to support your answer.

~~Today is the age of technology~~ ~~Nowadays is technology era~~. After ~~the industrial revolution, industry revelation~~ most of the things became mechanized. Although I like doing some work by hand because I ~~consider it think~~ more valuable, I prefer using machines ~~s~~ because of several ~~of~~ reasons. Firstly, using machines ~~s~~ accelerate life. Secondly, most of the machines are ~~precise hair-trigger~~. Finally using machines ~~s~~ is much ~~more~~ convenient than working by hand.

First of all, Machines are fast and they ~~are~~ planned to do work ~~in the on~~ due time. Our lives have obviously changed by using machines in all aspects. We can see various kinds of machines ~~used using~~ in places such as factories, cities, farms, universities, or even in our house. For example, as I am ~~an~~ architect, I use ~~the~~ computer to design because it is faster than sketching by hand, ~~so -So~~ machines ~~work do~~ fast and accelerate our lives ~~s~~.

Secondly, all of us believe that quality is much ~~more~~ important than quantity. Using machines ~~increases~~ accuracy. When we ~~doing~~ some work by hand, it is ~~probably that~~ we make mistakes, for example, when we want to calculate many figures together, using ~~a~~ calculator is much ~~more~~ accurate than ~~calculating~~ by hand, or ~~measuring~~ some things with ~~a~~ digital ~~scale weight~~ is more accurate than ~~measuring~~ by ~~a~~ usual ~~scale weight~~. Therefore, using machines is ~~more accurate hair-trigger~~.

Finally, Machines do ~~works~~ more ~~rather~~ than hands. ~~Working Doing~~ with machines ~~can reduce our tiredness. never makes us tired~~. Machines do much work which is economical for the producers. Machines never get tired and can carry out the same work in ~~a~~ long time. While, people ~~are~~ trying to work more, ~~they~~ might even get ~~hurt damage~~ which becomes too expensive to cure. For example washing clothes by hands ~~s~~ is hard and troublesome. Instead, washing clothes with ~~a~~ washing machine is easiery without ~~less any~~ trouble, ~~so -So~~ using machines is much ~~more~~ convenient than working by hands ~~s~~.

All in all, even though some people prefer to do their work by hand, I always believe ~~in doing to-do~~ my work using machines. This way I can work more efficiently and effectively.
