

94.06.27 workshop FRI session 22

development of countries

- 1. Economic growth is generated in major cities**
- 2. Urban citizens have access to jobs and facilities**
- 3. They improve their living standards**
- 4. These are not equally enjoyed by villagers**
- 5. This can generate several problems**
- 6. In terms of their emotional health**
- 7. Countrymen will move to the cities**
- 8. This puts great pressure on housing**
- 9. Leading to the creation of massive slum areas**
- 10. Conditions will be not as impressive as those in urban areas**
- 11. Rural areas will be under-populated**
- 12. This can impact on food production**
- 13. A sense of inequality may develop**
- 14. This may lead to more crime**
- 15. And even civil unrest**
- 16. The key to reducing these problems**

- 17. seems to lie in improving the living**
- 18. standards**
- 19. providing incentives could be a good solution**
- 20. decentralization could be another alternative solution**
- 21. otherwise we will have to bear the grave consequences**
- 22. who do you take after**
- 23. in terms of appearance**
- 24. in terms of personality**

Good luck!
